**Mercury Enters Sagittarius**

People will say anything for a laugh about now - and for the next few weeks they'll tend to just say anything in general and then keep talking. Blue-sky blustering is the order of the day, but there's a kernel of truth in some of those free-form filibusters, so don't overlook that fleck of gold gleaming in the pan.

**Venus Trine Neptune**

Getting creative and dreaming up new joys and pleasures comes with ease, and there are plenty of others playing in that sandbox, so share and share alike. Spiritual and material pleasures do not need to conflict, but can go hand in hand for self-satisfaction and the benefit of all. Believe it, and it will come true.

**Venus Sextile Pluto**

Quiet confidence in achievable goals makes things run smoothly and cooperation in the mutual interest means everybody gets just the right piece of the pie. Giving easily without a thought to the cost breeds instant karma and it all comes back again in spades. Fearless love is its own greatest reward.

**Mercury Square Neptune**

It's easy to insist on cutting your way through the confusion only to find yourself more at sea than before. Perhaps it is better to roll over and go back to sleep and wake up on the other side of the bed. Elusive concepts flee in the face of challenge, so watch the show without requiring explanation. No subtitles.

**Venus Sextile Jupiter**

There is an opulence in good taste that surpasses grandeur, and the key to satisfaction is not how much you have but what you do with it. Taking just what you need to feed your desires makes for a gentle spiral of growth and gratification. By making it just so, the afterglow of contentment lingers on.

**Mercury Trine Mars**

It's a good time to put ideas into action in a big way, and when you put your best foot forward you'll find agreement and cooperation all around. Supreme faith in your ideas will be infectious -- just know you're right, then go ahead. Undertakings begun today will seem seriously smart for a longtime to come.

**Venus Sextile Saturn**

The little things in life can be the most satisfying, and, when closely viewed, often loom larger than they really are. Simple desires, simply satisfied, have a way of sustaining life that allows both joy and unhindered progress. Today's endeavors will share that quality as they develop, quenching your thirst, banking your fires.

A good belly laugh satisfies everyone right now, and refined taste is not necessary to make a hit. In fact, nuance may not be much in demand at all, so don't expect you're subtleties to get lapped up. Go for the gusto, along with everyone else, or else sip your sup on the side. Don't knock the slapstick, however, it's still classic.

**Saturn Enters Aquarius**

The next couple of years do not hold much promise for those who have entrenched themselves in commonness. The one-size-fits-all philosophy will see some serious setbacks as quality and quantity part company and leveling bureaucratic structures get shaken up and shaken down. If you've been tending to your own business, this fortunately won't include you.

**Jupiter Enters Aquarius**

The upward path this coming year will be much about giving everybody a piece of the pie and sharing all resources to pull ahead together. It's not a great climate for going solo, since everybody's looking to share both wealth and burden, but it's a good time to discover untapped potential in people and places which were there all along.

**Mercury Conjunction Sun**

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

**Mercury Enters Capricorn**

If you don't have a mind like a steel trap, you may get shut out for the next few weeks, because linear thinking is for the moment all the rage. Digressions will get you dismissed, even if they're terribly relevant, so save those side roads for the next trip. The skeleton crew of the mind is in charge on this watch.

**Jupiter Conjunction Saturn**

This broad social-economic indicator portrays a current climate of social and financial change in which new ways of approaching life come up to challenge more traditional beliefs and methods, marking a year or so of turmoil and uncertainty as it all sorts out. Just as so many individual dramas were played against the backdrop of World War II (begun under this aspect), your own play finds itself on a stage possessed by strong forces and currents, which, if well taken, lead on to fortune. These are what the Chinese called "interesting times," less predictable and more heroic than most.

**Mars Square Pluto**

A maze of twists and turns emerges from dodging too many roadblocks without having a real plan. The only sure way out of a maze is to make turns in only one direction, right or left, but clearly few know that. Don't push the envelope, circle around inside it until you find the door, then vamoose.

Original ideas find a home and progress is easy on all fronts for those who get in gear and make something of it. What was obscure before is obvious now, but it will be history soon if it's not exploited, so get on your own bandwagon before someone else takes it over. It's Thomas Edison time (or Bill Gates?), exploit the moment.

**Venus Square Neptune**

Desires deceive and getting hold of what's wanted seems to be a continuing and elusive task. Watch out for illusions and delusions being sold as the real thing, then snatched out of reach just before consummation. If you're unsure, don't invest time or money or you'll be perpetuating the situation.
