Negative thinking can sour the environment and confound the mind, so don't be a sourpuss -- and when you see one coming, cross to the other side of the street. It's easy to get into a downward spiral, so deal with problem issues only once and be done with them. Criticism gets nowhere, so it's not worth the bother.

Sometimes when desire is there, opportunity or energy is not, and vice versa. People chase what they want, and when they catch it, change their minds or just can't follow through. You can wind up on either side of this formula, which can lead to frustration or disappointment, so don't play the game. Say yes or no, then go for it.

### Mercury Enters Scorpio

There's an air of secrecy about for the next few weeks, as if everybody's trying to keep a copyright on what they're thinking, so pulling out ideas may be like pulling teeth. Critical elements are often withheld until you've passed the entry test - but once honestly shared thinking gets going, it runs deep.

Sometimes innovation and expansion arrive on a gentle breeze, sometimes on a hurricane. This time it is likely to see the latter, when progress is not to be resisted or it will overcome you by sheer force. This does not mean you have to get on board of every new brainstorm, but if you see a juggernaut coming, either climb on or get out of the way. On a personal level, however, this can mean shoving your ideas or beliefs down someone's throat, albeit with well-meaning, and that can be tantamount to coercion or worse. No means no, whether you believe it or not, and since the tendency for coercion is in the air in general, you may be the one on the receiving end to most benefit from that.

Strong-arm tactics rarely achieve inner goals or fulfill long-term needs and desires, but that wisdom may be lost on a lot of people right now. Pushing and shoving can be the order of the day, with increasing desperation and diminishing returns. If you see a vicious circle developing, jump out of the spiral ASAP.

**Venus Square Jupiter**

An inclination to overdo beyond diminishing returns is fueled by the desire to get things just right. One more added touch, just another taste, try it once again, until satisfaction goes out the window. Sometimes less really is more, even if it doesn't seem like it, so backing off may save you both time and money.

**Mercury Opposition Uranus**

Sudden insights appear and then vanish before you can work them out and set them down. The journey of the mind is interrupted and must proceed in fits and starts. It's a good time to see different sides of the issue, but hard to get a tight bead on the target. Take it in stride and collect information.

**Venus Square Saturn**

Whittling away at your needs too insistently may only serve to magnify them and force a spiraling return to an overtapped well. If you take what you need and be done with it, what you have will suffice, even if you have some reservations. Total satisfaction may have to wait a bit, complaints don't help, only annoy.

**Venus Enters Scorpio**

The hunt for objects of desire is in full swing for a few weeks, so expect some very intense satiation all around. It doesn't show much on the surface, but when the doors close and the shades go down, it's all the way - literally or figuratively. Dipping your toe in is not what's happening now, so beware if you try to -- you may be pulled in headlong with the rest.

**Mercury Trine Neptune**

It's easier than usual to put difficult and elusive concepts into words and put them to work for the general benefit. If you have a dream, now you can speak about it and people will understand. Listen to the same from others, who now have the same opportunity to share their inner visions and unite with you.

**Mercury Sextile Pluto**

Tuning in to the Force can be easier than you think -- you might be doing it right now. When you work in sure knowledge, it works through you. Thus, what you take for granted is your very support structure. Foundations laid now will have that subtle support that protects without any armor at all.

**Venus Opposition Uranus**

Fickle desires and changing tastes can make it difficult to satisfy yourself or those around you. If people keep changing their minds, what is one to do? It's probably best to wait for a clearer focus before committing to something that could be out of fashion the moment after it's begun. For

the time being, just experiment.

Ideas that were once only on the drawing board wind up panning out seamlessly, and you might look to how that happened as a model for future operations. The chances are you didn't even notice, having your mind a step ahead already. Undertakings begun now have an easy future with continuing creativity assured.

### Mercury Sextile Saturn

Slow and steady wins the race -- in this case, without even knowing the race is on. Quiet thought in a still place dispels the cobwebs of the mind and substitutes depth for crowded considerations. A marathon of any kind is well begun now, and the pace will be set for a long run without getting winded.
